The scope of the new claims is the same as the scope of the old claims. The only substantial changes were that having a slot on both sides is a more accurate description when compared to the specification than having two slots on either side, and also claims 12-13 were cancelled and claims 21-23 were added and they are within the scope of the old claims. After reviewing, CFR 1.312, MPEP 607 and CFR 1.16(h) and 1.16(i), the additional new claims are allowed to be and are accepted.
